Chromebook Policy Review & Acceptance

The Chromebook is part of the 1:1 Initiative and is being provided to support the educational programs at Atlantic County Institute of Technology and is the property of Atlantic County Vocational School District. The District has set up site restrictions to monitor web activity - ANY activity conducted on a district Chromebook is subject to monitoring even when not connected to the district network. Failure to comply with the ACIT Student Handbook, District Acceptable Use Policy, and Chromebook Policy and Procedures Guide for the care and use of the Chromebook (found at the link below) may result in disciplinary action, loss of take home Chromebook privileges, and/or charges for replacement or repair of the device. You should report damaged, lost, or stolen Chromebooks to the IT Department at ACIT as soon as possible.

Each Chromebook has a unique identification number and at no time should the numbers or labels be modified or removed. Do not attempt to gain access to the internal electronics or repair your Chromebook. If the Chromebook is damaged, lost, or stolen report the problem to the ACIT IT Department as soon as possible. Chromebook repair/replacement options will be determined by the School Administration. You may be issued a temporary Chromebook until the assigned device is repaired or replaced. If the Chromebook is experiencing technical difficulties outside of school hours, you will need to wait until you return to school to bring the device to the ACVSD IT Department.

Each Chromebook is covered by an extended warranty protecting against manufacturer defect only. The warranty protects the device from defective components and battery related issues. Power Adapters are not covered by the extended warranty. Accidental damage such as damage resulting from a drop, cracked screens, or liquid damage is not covered under the extended warranty and may be subject to repair costs. Once the device is brought in for service coverage can be determined as well as estimated cost for replacements parts. There is no charge for labor or diagnosis of the device, only for the replacement of the part for repairs not covered by the manufacturer warranty. All parts must be authorized by the manufacturer and meet or exceed OEM quality standards, no 3rd party parts are permitted (this includes chargers). Costs for replacement parts are subject to change and will be quoted at the time of the repair.

If the Chromebook is damaged, lost, or stolen, the student/borrower and/or parent/guardian will be responsible for the cost of the repair and/or replacement value as of the date of loss ($300).

The district chromebook policy can be found on our website at: https://acitech.org/chromebook

I have read the Chromebook Loan Agreement and the Policy and Procedures Guide, in which I understand my responsibilities as a parent/guardian and student/borrower in the Chromebook 1:1 Learning Experience.
